## Fundraiser 1.0 Program Use!

Use the Web Kilobytes of space for your 50-Push Network and build content. We have setup Fundraiser 1.0 with web tools like blogging, classifieds to promote other products to other 50-Push Members. You are able to create content on anything you choose on Fundraiser 1.0 server excluding adult and gambling content. Therefore, you can use Fundraiser 1.0 other than raise funding for your projects too. Good News! Use these tools to attract more partners. When you create content, Google, Yahoo, and other search engines will list your information, so that people can find your pages on Fundraiser 1.0. Once a viewer sees your content, they will see Fundraiser 1.0; therefore, you will get credit for a new partnership helping you raise more funding.

**The Web Kilobytes you own is your property.** Once someone buys more than you own, you are receiving interest payments on your property from your 50-Push Network based on the upgrade level you are on. If you upgrade the level of terms of your payouts, your interest payments will increase to help you raise more money quicker.

### Scenario:

Jimmie buys at Level 6 for \$100 at a 35% Payout. Sara buys at level 3 for \$25. Jimmie has made \$8.75. Over the course of a month, Sara upgrades her partner ownership that adds up to \$495 to increase her payout percent. Jimmie makes \$173.25 in interest payouts. A 173% return on his investment on Level 6. If Jimmie has 50 Partners to do this in a month in his network, he would have raised up to \$9,100 in interest payouts from an investment of \$100.

- If Jimmie owned 100 Kilobytes for 75% payouts, he would have raised \$19,500 in interest payouts from the same network partners that bought kilobytes of useable web space. As his partner's upgrades their ownership, Jimmie's Web Kilobytes increases in value; therefore, giving

## Fundraiser 1.0™

him higher and more interest payouts.

- Good news! Jimmie can upgrade his ownership, and make this off his next 50 people. If he chooses or upgrade at a higher level to move ahead of his network to raise more funding, his interest payouts could take him \$37,500 per payout.
- Plus, Jimmie will make more as his referred members upgrade through Phase II, Phase III, and Phase IV Scales of Kilobytes Ownership for useable web space.
- In a year, Jimmie could raise up to \$170,000 or more in Residual Income for his business or personal income based on the progression of his Partners buying more Web Space to increase their payouts.

# Fundraiser 1.0™

mandatory, but it helps Fund Raisers attract more partners into the program from Google and Yahoo search engines.

**In order for this program to work efficiently, you must choose a level you can afford to raise. Even if you start at the lower level, you will raise money from Fundraiser 1.0.**

5. You will be sent a Kilobyte Ownership Certificate for that level for every purchase. Please file these certificates away.
6. You get paid \$2 for each affiliate sale from Fundraiser 1.0, and whatever percentage you selected to profit from in the phases.

The more content you have, more visitors you will get; therefore, more referrals clicking from your page to the front page. All referrals are recorded by your referring account with Fundraiser 1.0™.

## **Important Customer Information:**

In order to move to the Phase II, you will need to purchase at 75% of each scale; this is for all forwarding phases. You will be granted permission to access each level once you are at 75% (The Username and Password will be in your certificate. Do not buy into these levels until you have made enough to feel comfortable with moving to other phases. However, if your referrals start moving up faster than what you own in kilobytes, you could lose a greater return. Do not miss out making more money if your referrals move to the next levels and/or phases faster.

# Fundraiser 1.0™

## Fundraiser 1.0™ Rules:

I. If you are on Phase I, you will get 100% of your payout percent for that phase. However, if you have a referral that moves over to the Phase II, you will receive a payout at the phase level you reside times 25% on the Phase II, 50% on the Phase III and 75% on Phase IV. In order for you to make 100% of payout levels, you must be on that phase or greater.

**Example:** Jimmie is on the Phase I and Sara is now on the Phase II. Jimmie makes 35% of all the purchased Kilobytes that Sara makes. Sara buys \$800 in kilobytes to increase her returns. Because Jimmie is on the Phase II he would have to calculate his payout  $\$800 \times 35\% = \$280$ . Because Jimmie is not working on the Phase II, he would have to calculate  $\$280 \times 25\% = \$70$ . Jimmie made \$70. The sooner Jimmie moves to Phase II at 75%, the larger his return will be.
